

Come be a part of Sherbrooke's Colour Brick Road...

Hello parent! We are getting ready to kick off Sherbrooke Academy Sr.'s annual Winter Fest Week. On Wednesday, March 1st, our activity will be the building of a Colour Brick Road. This will involve all students and staff and will require the following:

We ask that each student bring two (or more) colourful bricks of ice to school on Wednesday morning. This can be done in a 2 liter cardboard milk container, plastic ice cream or yogurt container, or any other receptacle that will hold water to freeze. Add some Jello powder or food colouring to the water for added colour, then freeze. Please allow it to freeze over the weekend. Children are encouraged to personalize their brick by decorating it using feathers, pictures, glitter, small toys, etc...

IMPORTANT: On Wednesday morning REMOVE the colourful brick from its container, place it in a plastic bag and bring to school. Label the bag with your child's name & class number. Students are to drop off their masterpiece in the cycle 2 yard before entering the school in the morning. Bricks will be organized by class number.

These beautiful bricks will be placed on the path in our forest in order to create a community path of friendship.

**Thank you for your contribution and cooperation.
Winter Fest Committee.**
